ABOUT US

Complementing the policy work of the QRC, the QEC seeks to promote the natural advantages of Queensland and advocates Brisbane as a home to minerals and energy companies and the wide range of essential service companies.

It endeavours to influence perceptions about the importance of exploration and promotes Queensland's prospectivity to investors and businesses that support the resources sector.

QEC is led by a diverse and highly skilled leadership team including former Queensland Government Chief Geologist, QEC Chair Brad John, and Deputy Chairs, petroleum specialist Stephen Kelemen and coal specialist Darren Walker.
